Open Alliance

For PostgreSQL Education

Your Pathway to Verified PostgreSQL Skills

Where we are now

- founded the NPO with three companies and four private persons
- elected the board members
- defined the fees (temporary)
- signed a license agreement with the PGCA (PostgreSQL Community Association)
- created the logo and the website
- started a technical board
- collected more than 1.000 PostgreSQL questions
- made it public at PGConf.DE and asked other companies to join

Our vision for the future

- A system that allows the industry to identify
- A system that allows an individual to be identified
 - With a low threshold
- Create multiple certification tracks (DBA, Developer, etc.)
- Create multiple certification levels (Associate, Professional, Expert, etc.)

Our vision for the future

- Attract and entice companies
 - Sponsor the initiative
 - Offer training packages
- Establish the industry standard for PostgreSQL certification
 - Industry
 - Universities
 - Individuals
